

Kaiser Commission on Medicaid and the Uninsured Updates Medicaid Benefits: Online Database With 2006 Data

The Kaiser Family Foundation's Commission on Medicaid and the Uninsured has issued its latest update (October 2006) of the interactive [Medicaid Benefits: Online Database](#). Using this tool, Medicaid benefits can be compared across the 50 states, the District of Columbia and the US Territories or by specific service.

The online tool contains Medicaid benefits survey data from 2003, 2004 and 2006 with information about benefits covered, limits, co-payments and reimbursement. The tool includes an interactive map, an expandable list of benefits, and the ability to compare data across the three survey periods.
